LAMA SAFAR ALJUAID

Software Engineer

lamaaljuaid511@gmail.com | 0539702996

SUMMARY

Software Engineering student with foundational knowledge in Full-Stack development and algorithmic problem-solving, having solved 35+ coding challenges. Familiar with requirements engineering practices, including 15+ stakeholder interviews for system needs definition, Seeking a cooperative training opportunity to apply and develop technical skills within a professional software environment.

EDUCATION

Umm Al-Qura University (UQU), Third-Year Undergraduate — Bachelor of Software Engineering

GPA: 3.64

COURSES

Algorithmic Toolbox - University of California San Diego Coursera — Jan 30, 2026

Covered: Algorithm design, complexity analysis (Big O), greedy strategies, dynamic programming, and efficient sorting/searching implementations.

The Complete Full-Stack Web Development Bootcamp — Feb 22, 2026

Completed an intensive 62-hour training program in Full-Stack Web Development covering the fundamentals and technologies of front-end and back-end web application development.

PROJECTS

Miran: Clinical Training Platform (Graduation Project) — Academic Year 2025-2026

Developed a Full-Stack system to bridge the gap between hospitals and universities by automating training workflows, based on real-world requirements and architectural UML design

Tech Store Project -Built an e-commerce platform using React and Node.js to manage products, shopping carts, and user accounts. — Mar 2026

Library Management System (UML & Architecture) -Developed comprehensive UML models including Class, Sequence, and Component diagrams to define system behavior and the Client-Server communication structure. — Dec 2025

User Data Management Project - Created a Node.js and Express app using EJS application with full CRUD functionality to add, update, and manage user records while ensuring data consistency.

SKILLS

Feb 2026

Technical Skills:

- Languages **:** Java, Python, JavaScript.
- Web Development **:** Node js, Express js, React, HTML, CSS.
- Database: SQL, MongoDB**.**
- Tools: Git, Github.
